

TECHNOLOGICAL MILESTONES IN ACQUISITION OF WEATHER DATA AND DETECTION OF ROAD SURFACE CONDITION

Karl E. Schedler
 micKS MSR GmbH, LUFFT GmbH
 Oberstdorf, Fellbach, Germany
 Phone: +49-8322-8099176, schedler@micKS.de

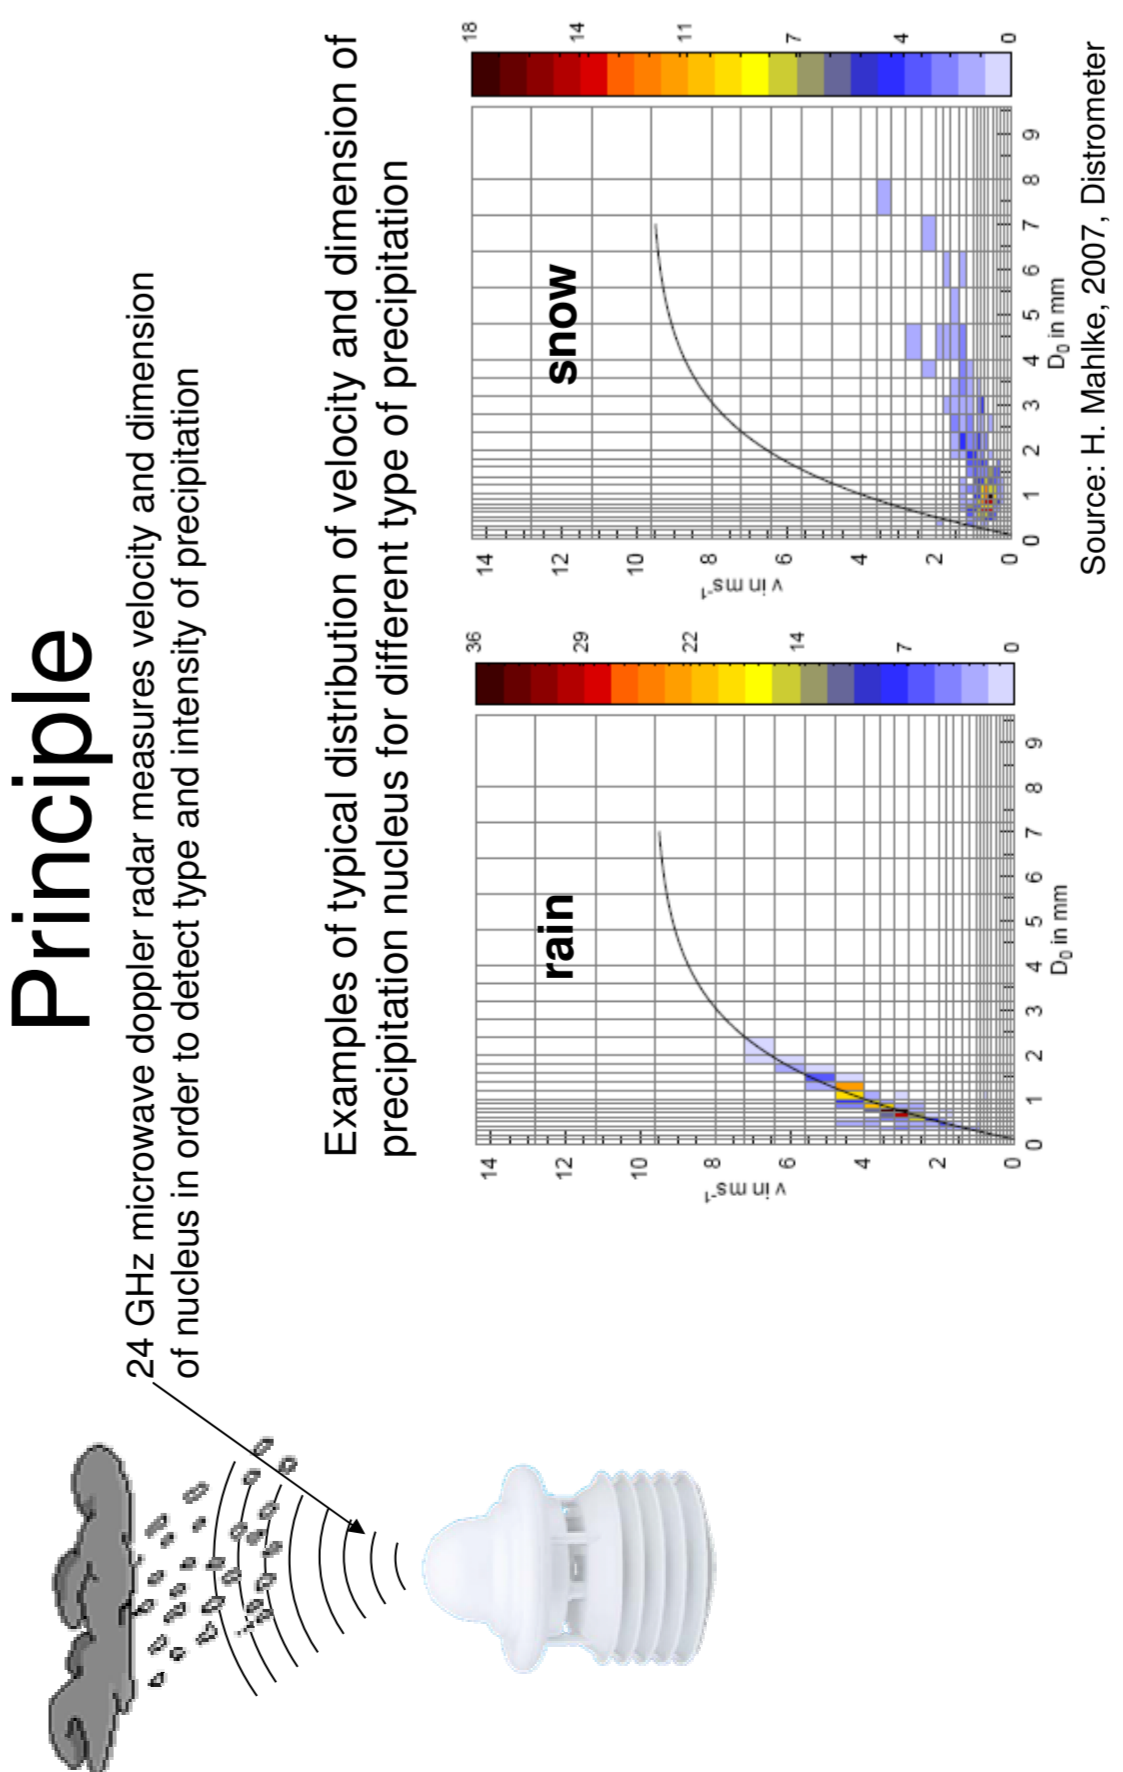

New Intelligent Sensor Technology

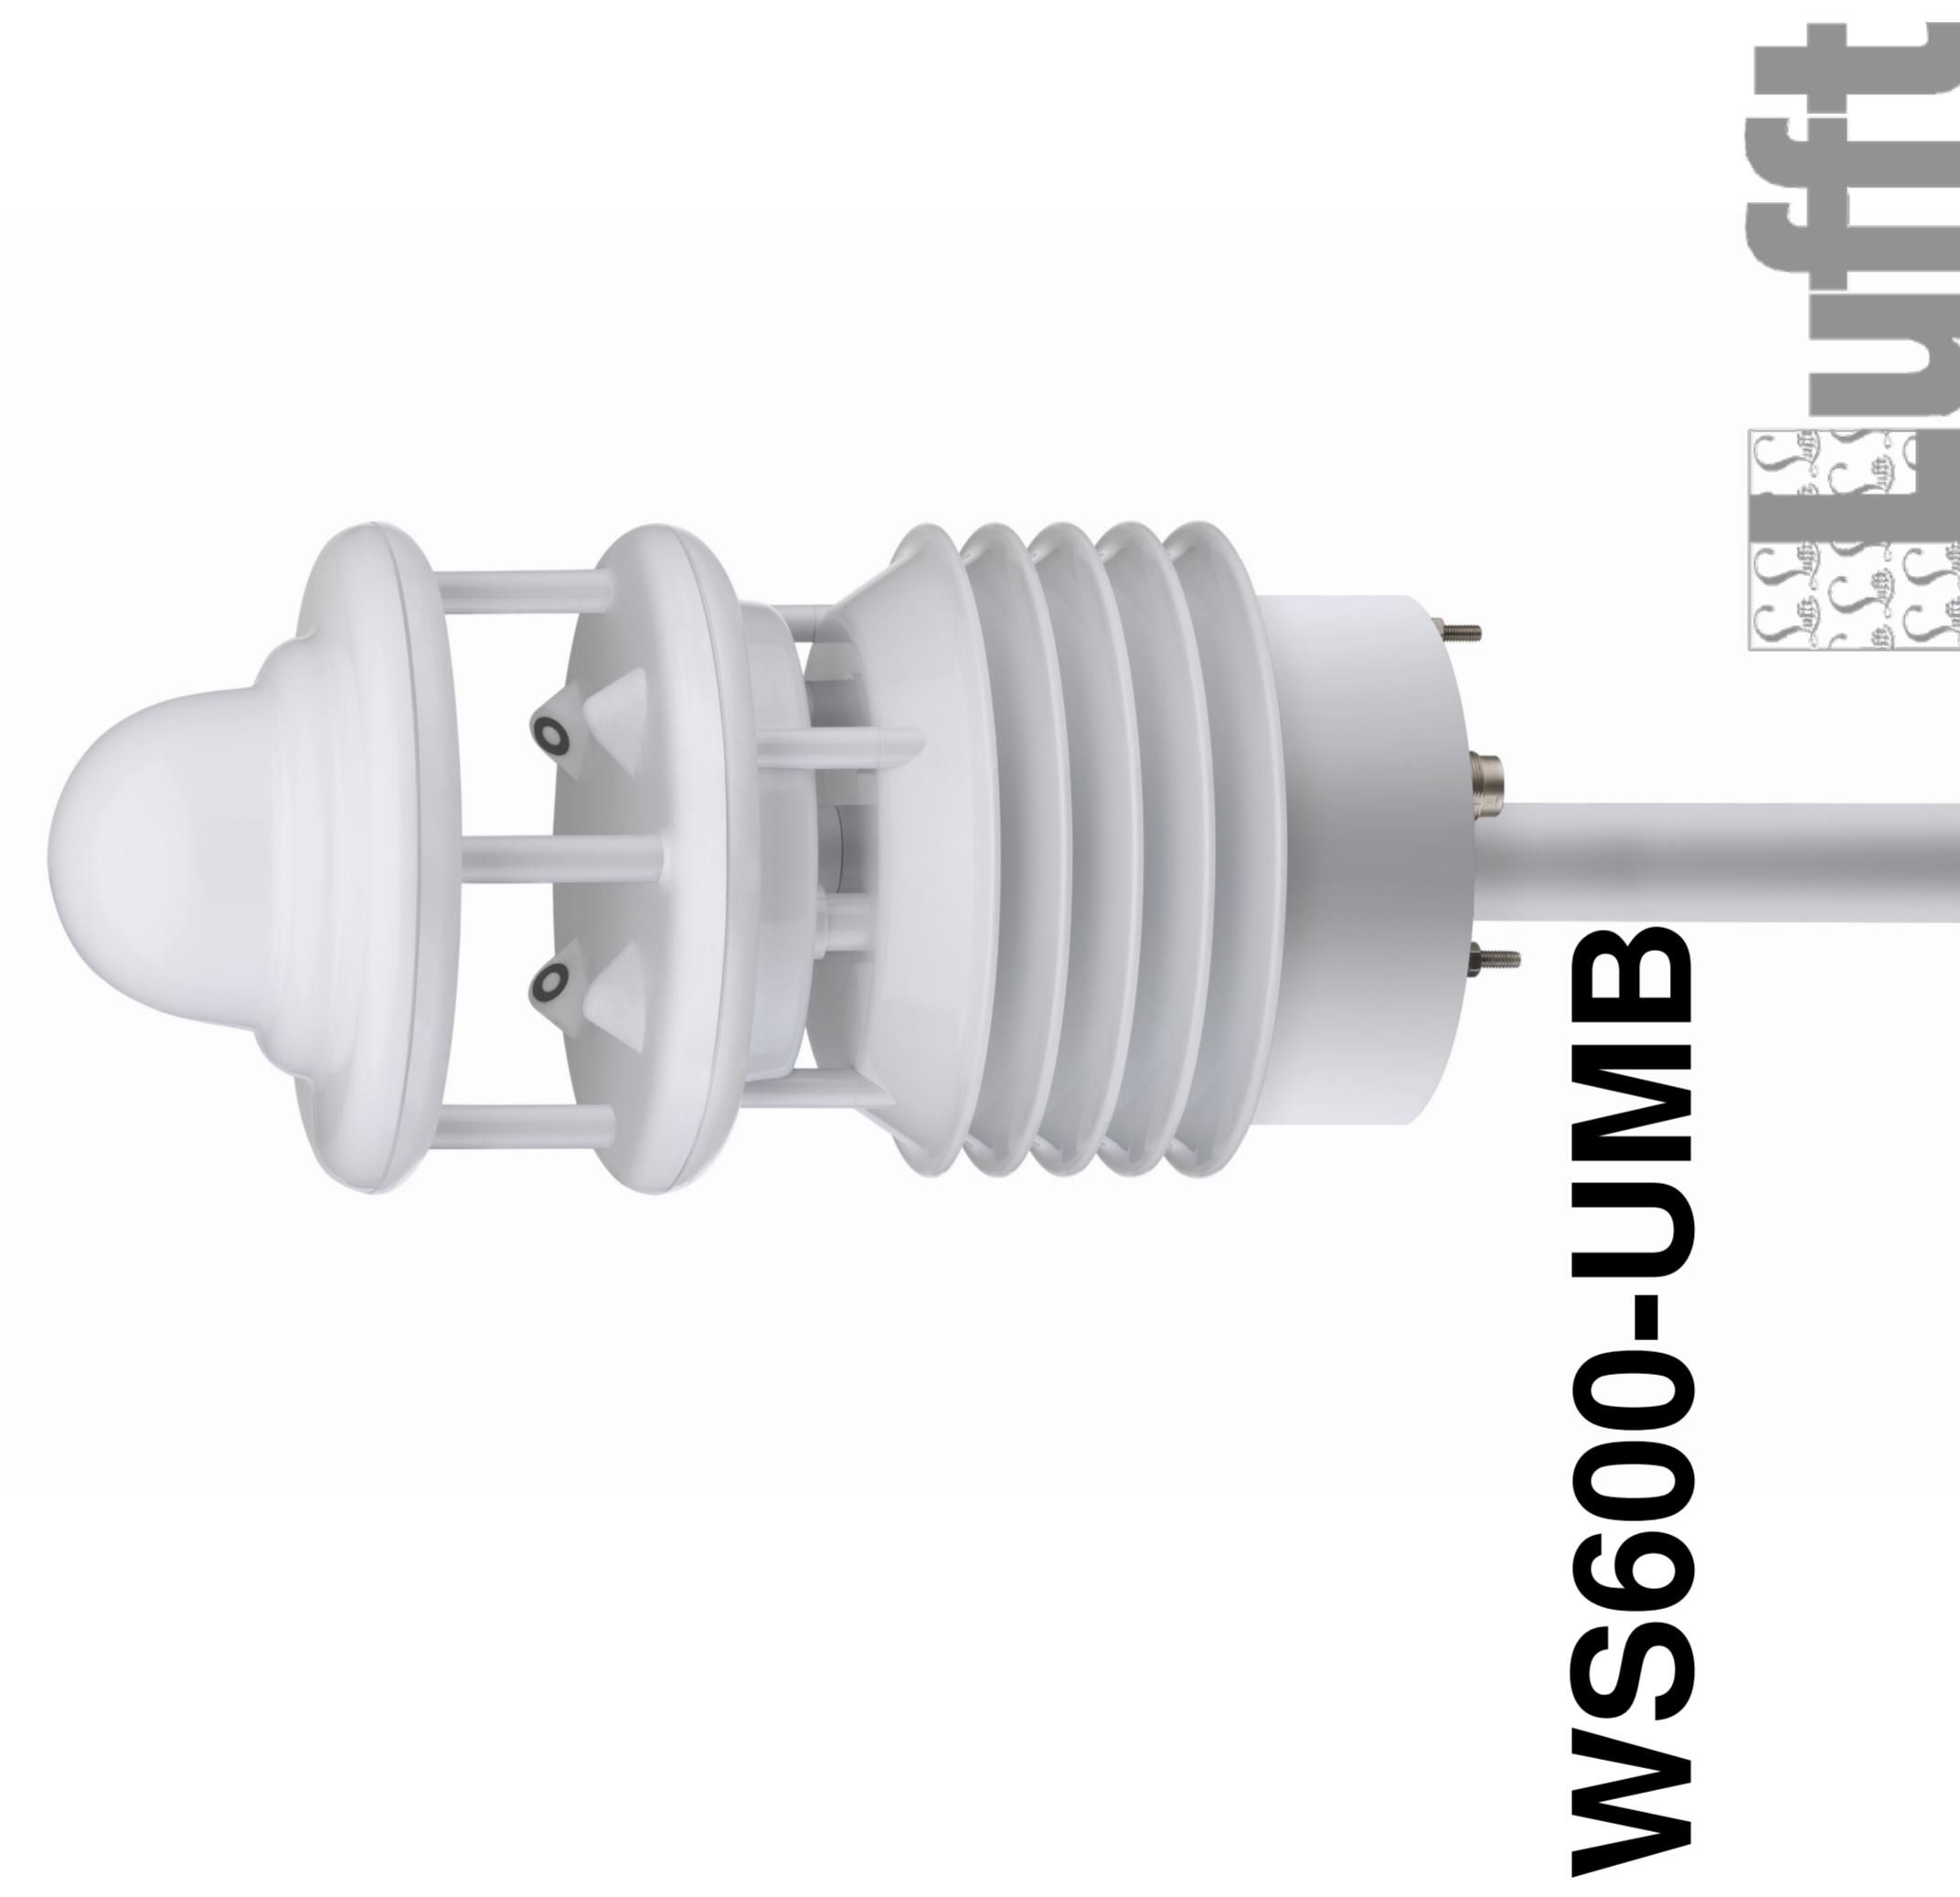

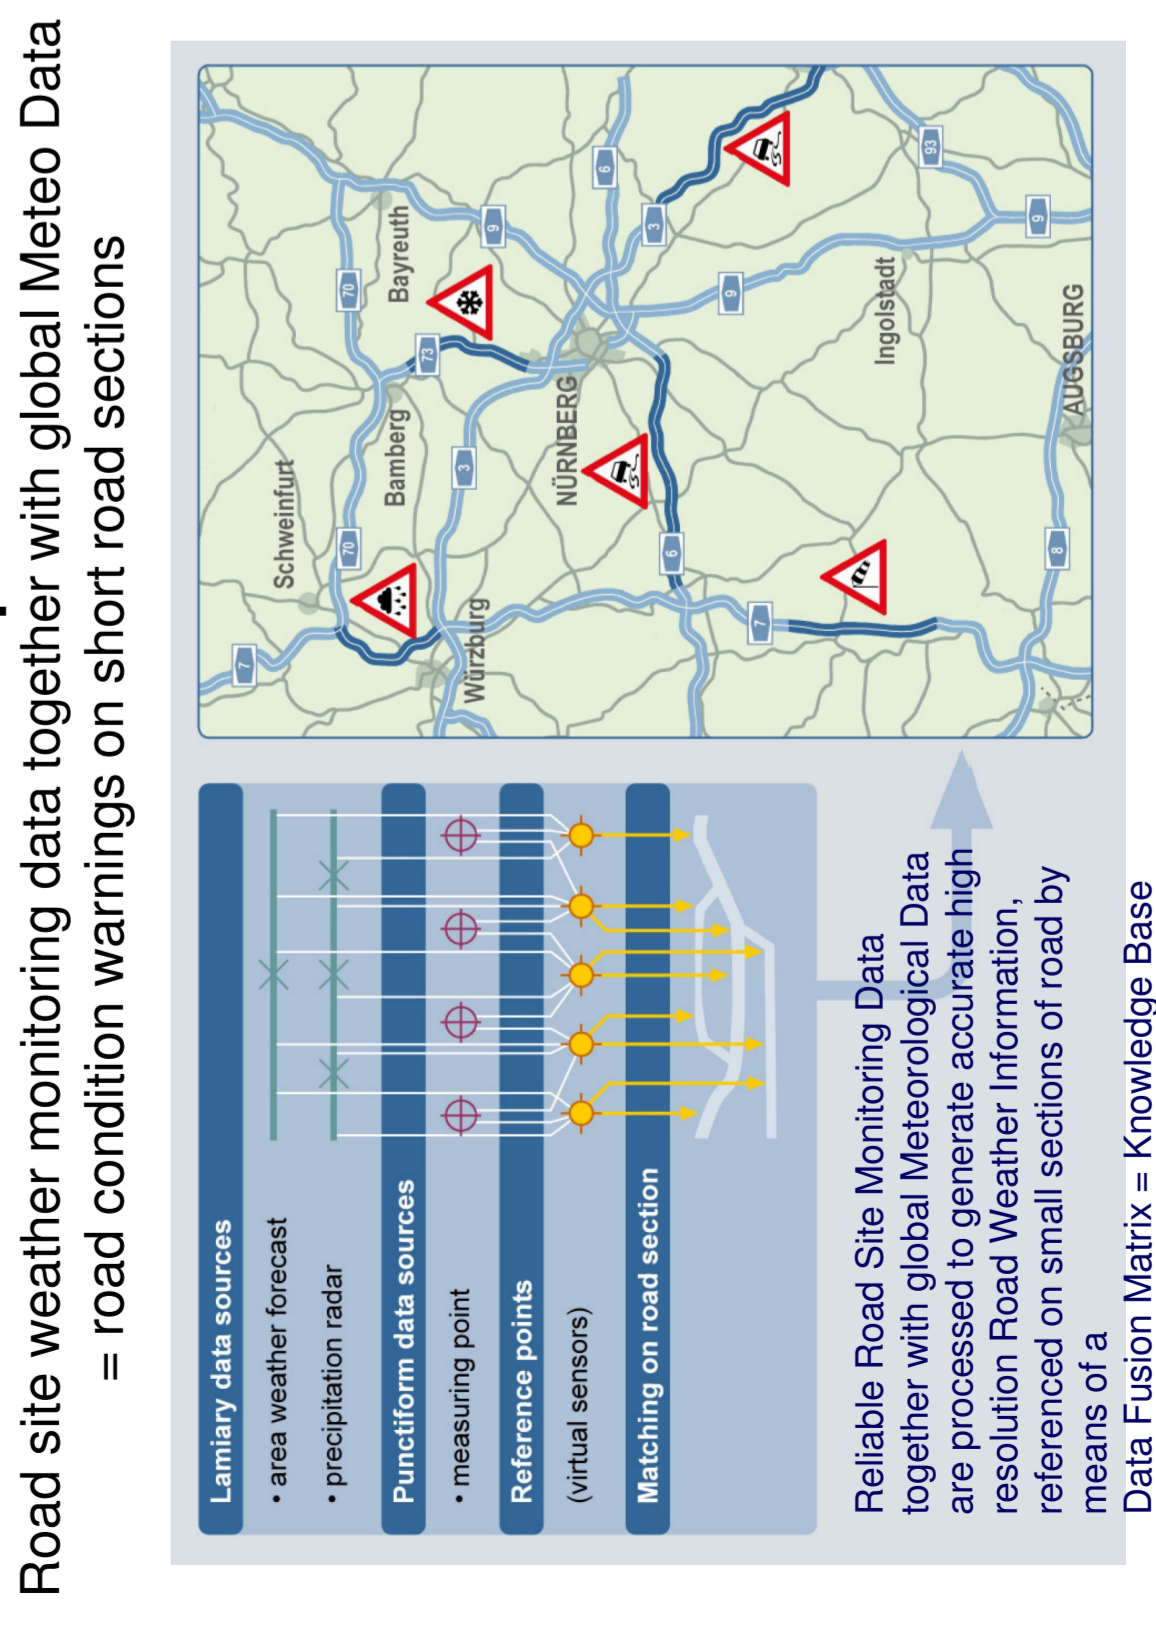

Intelligent and compact device for atmospheric measures

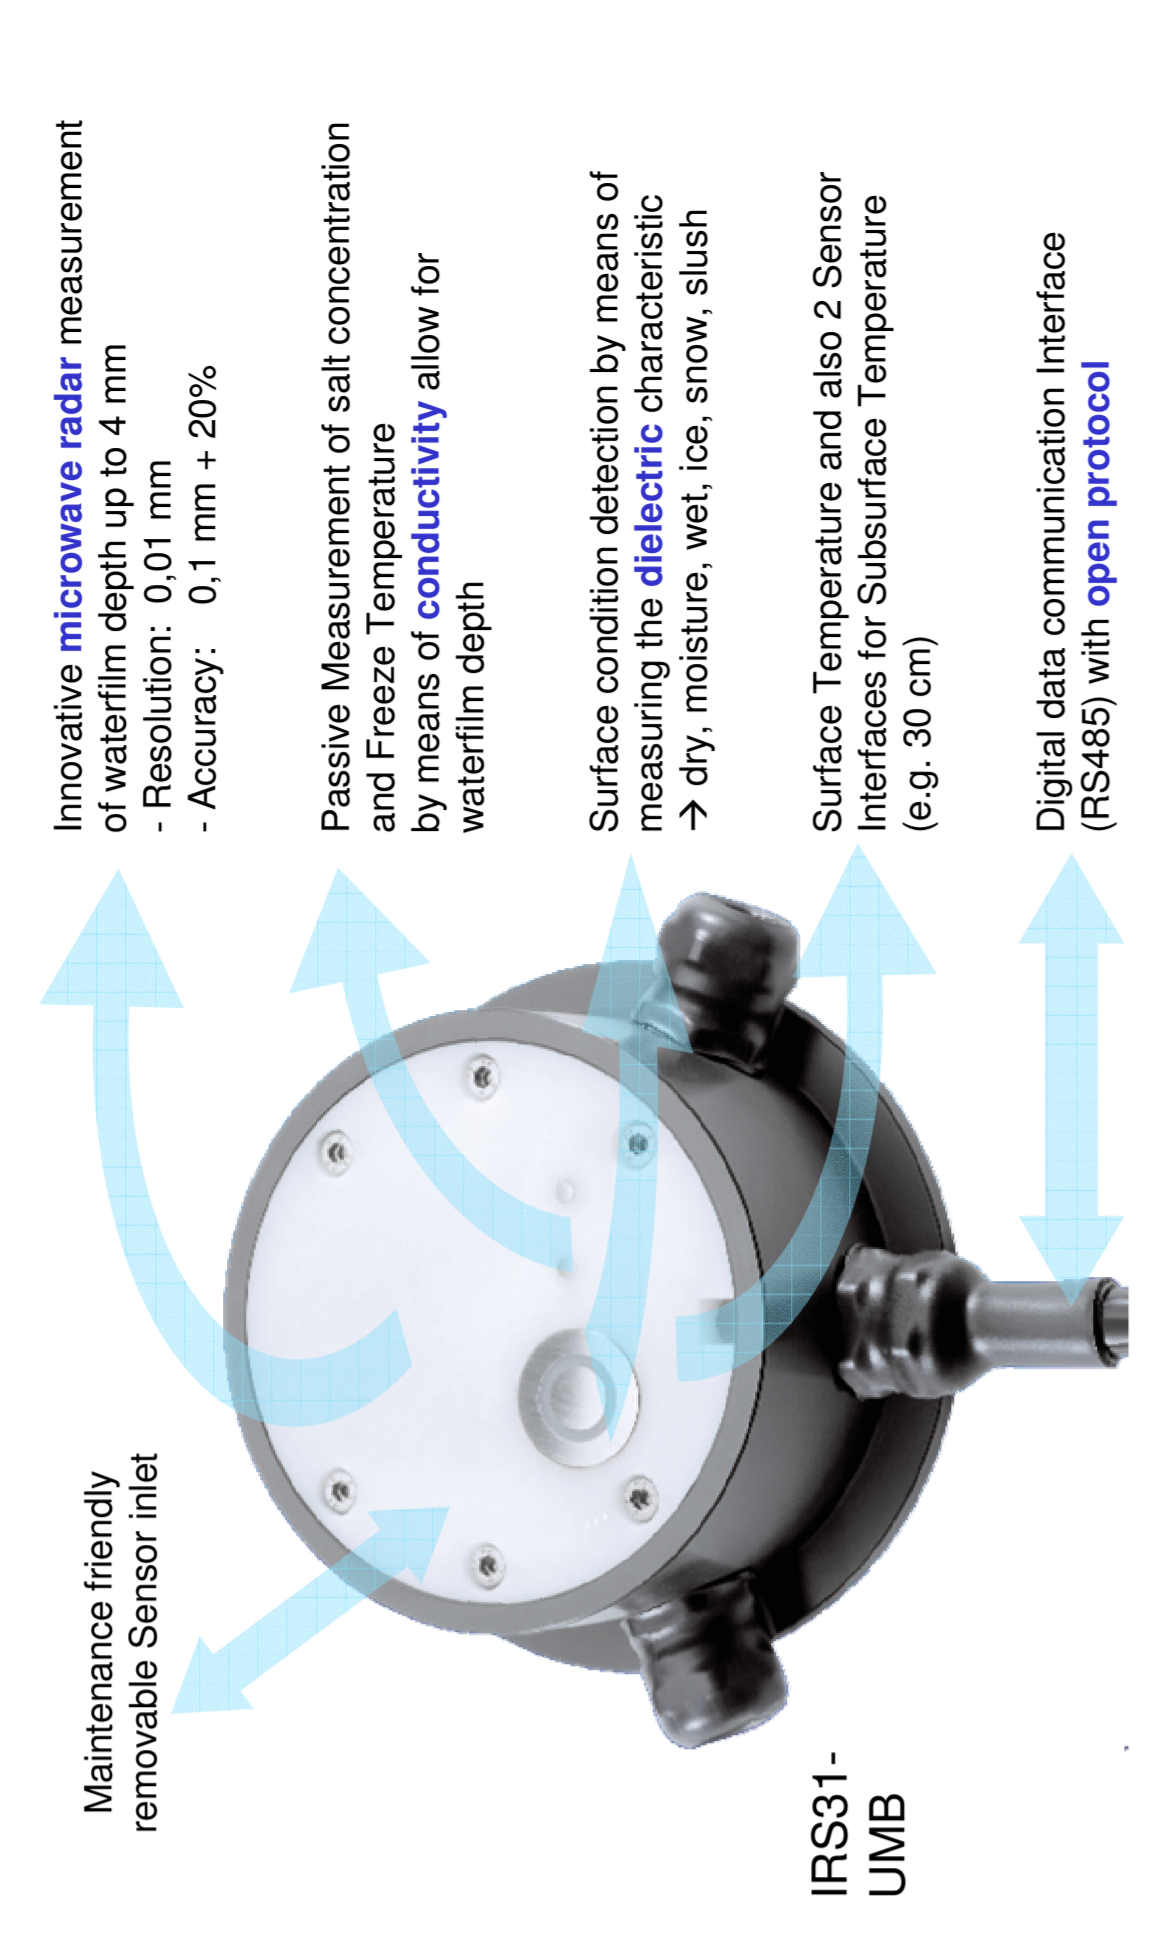

Doppler Radar Precipitation Detector

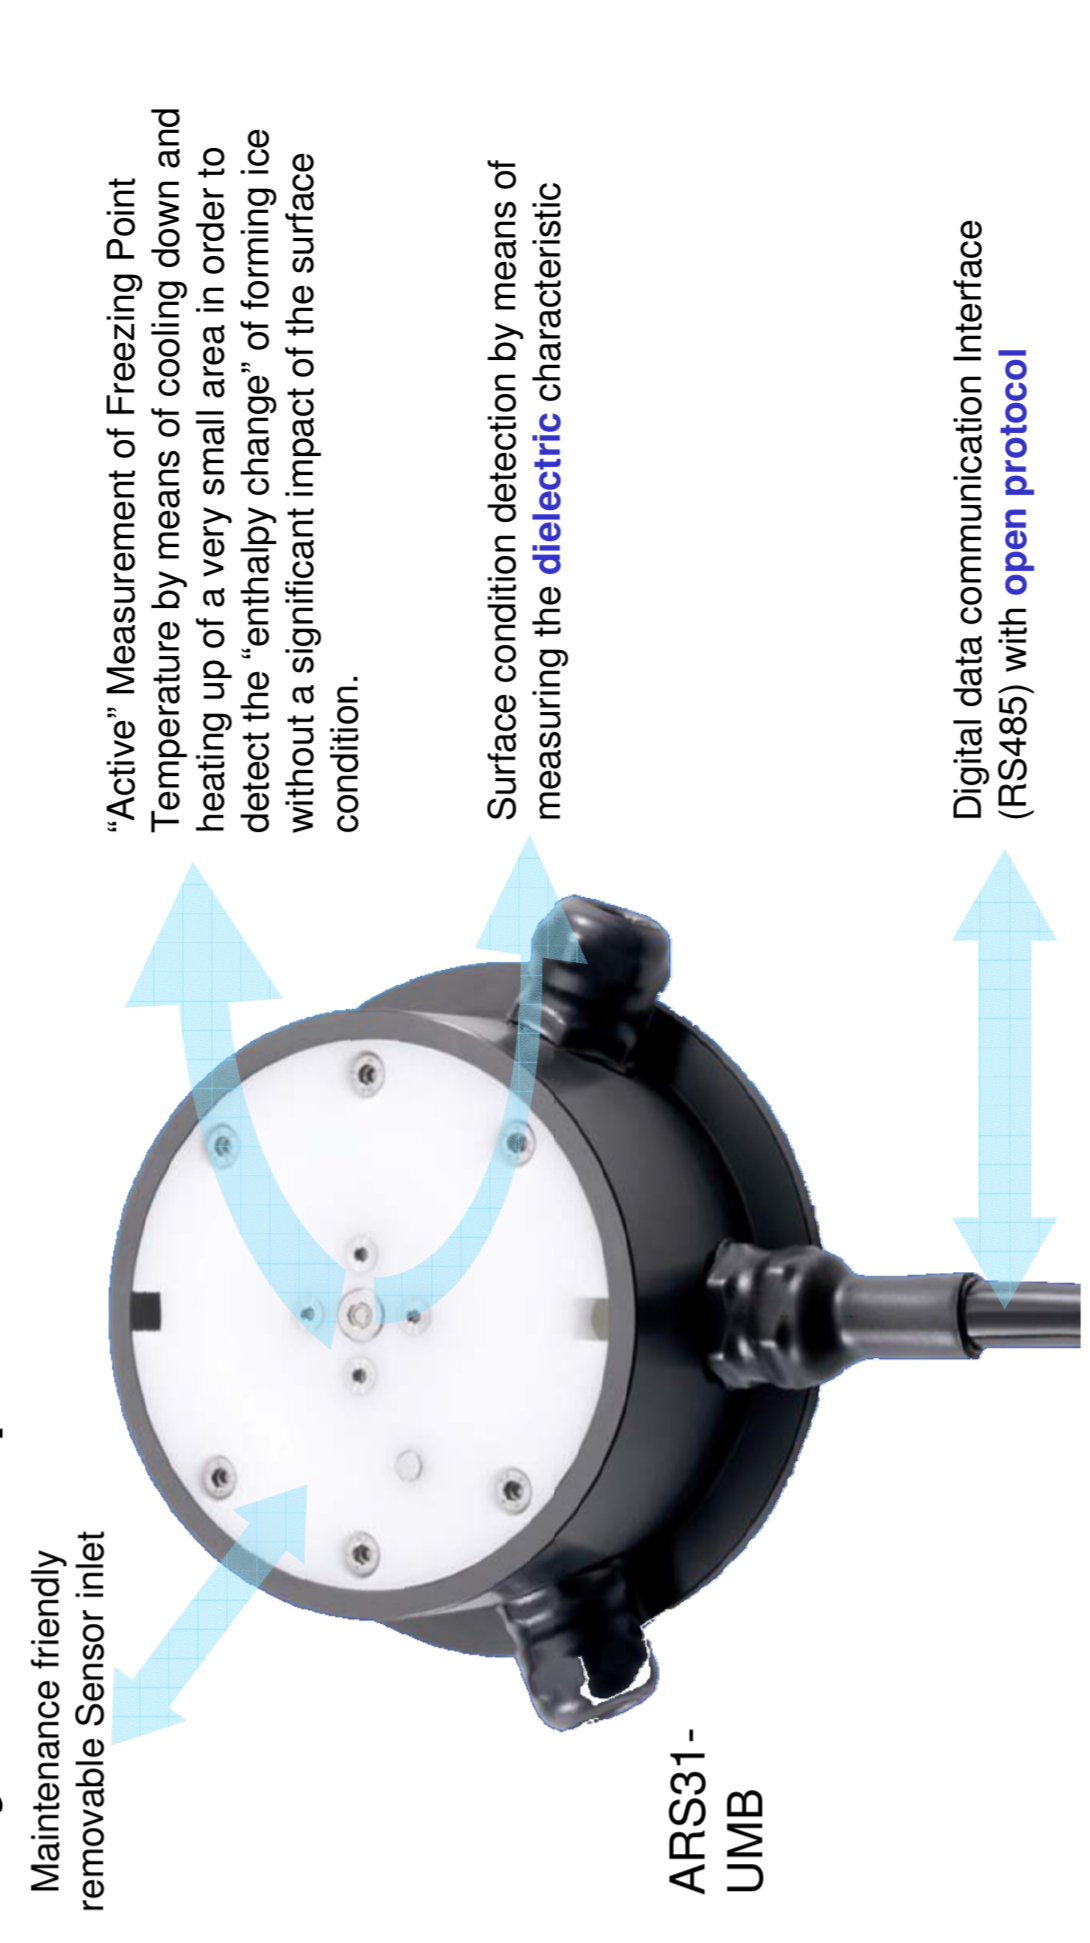

Road Weather Service Operation Platform

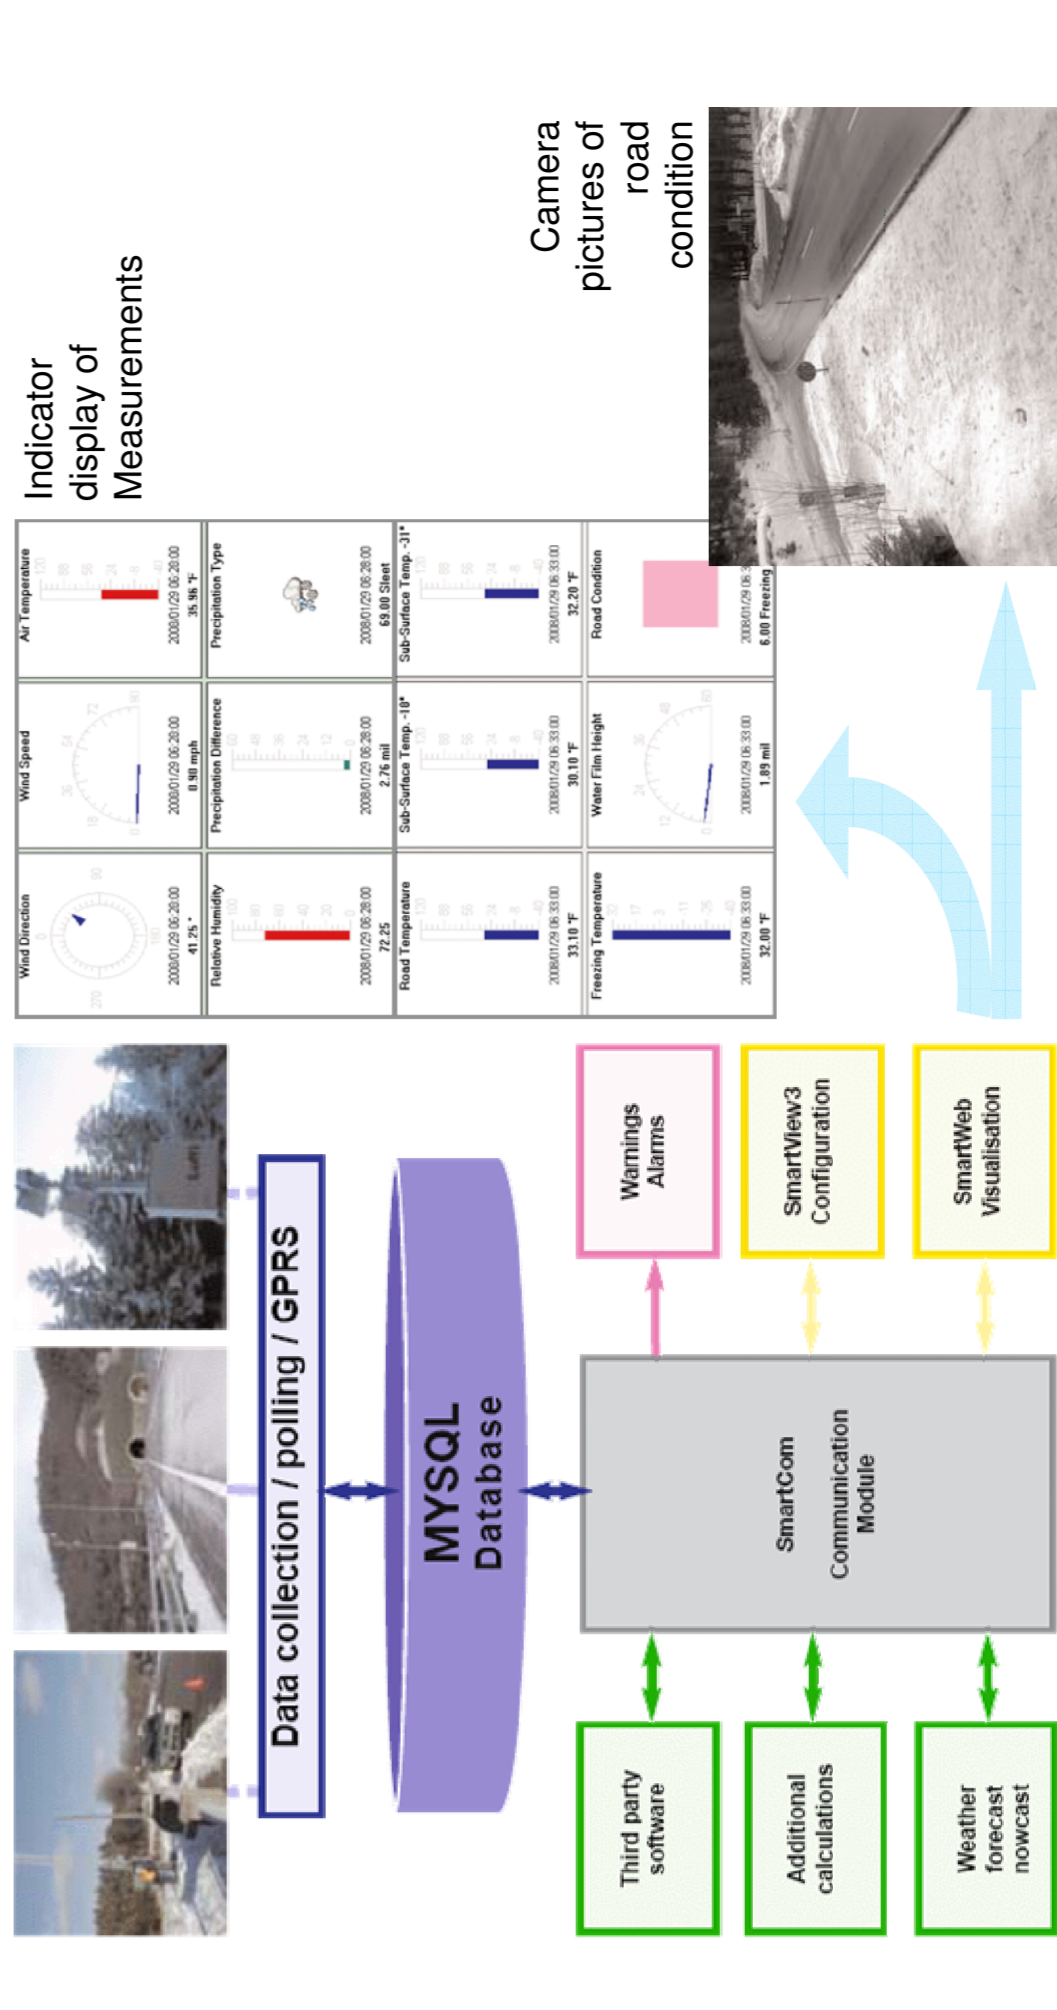

Intelligent and compact device for a complete road condition measurement

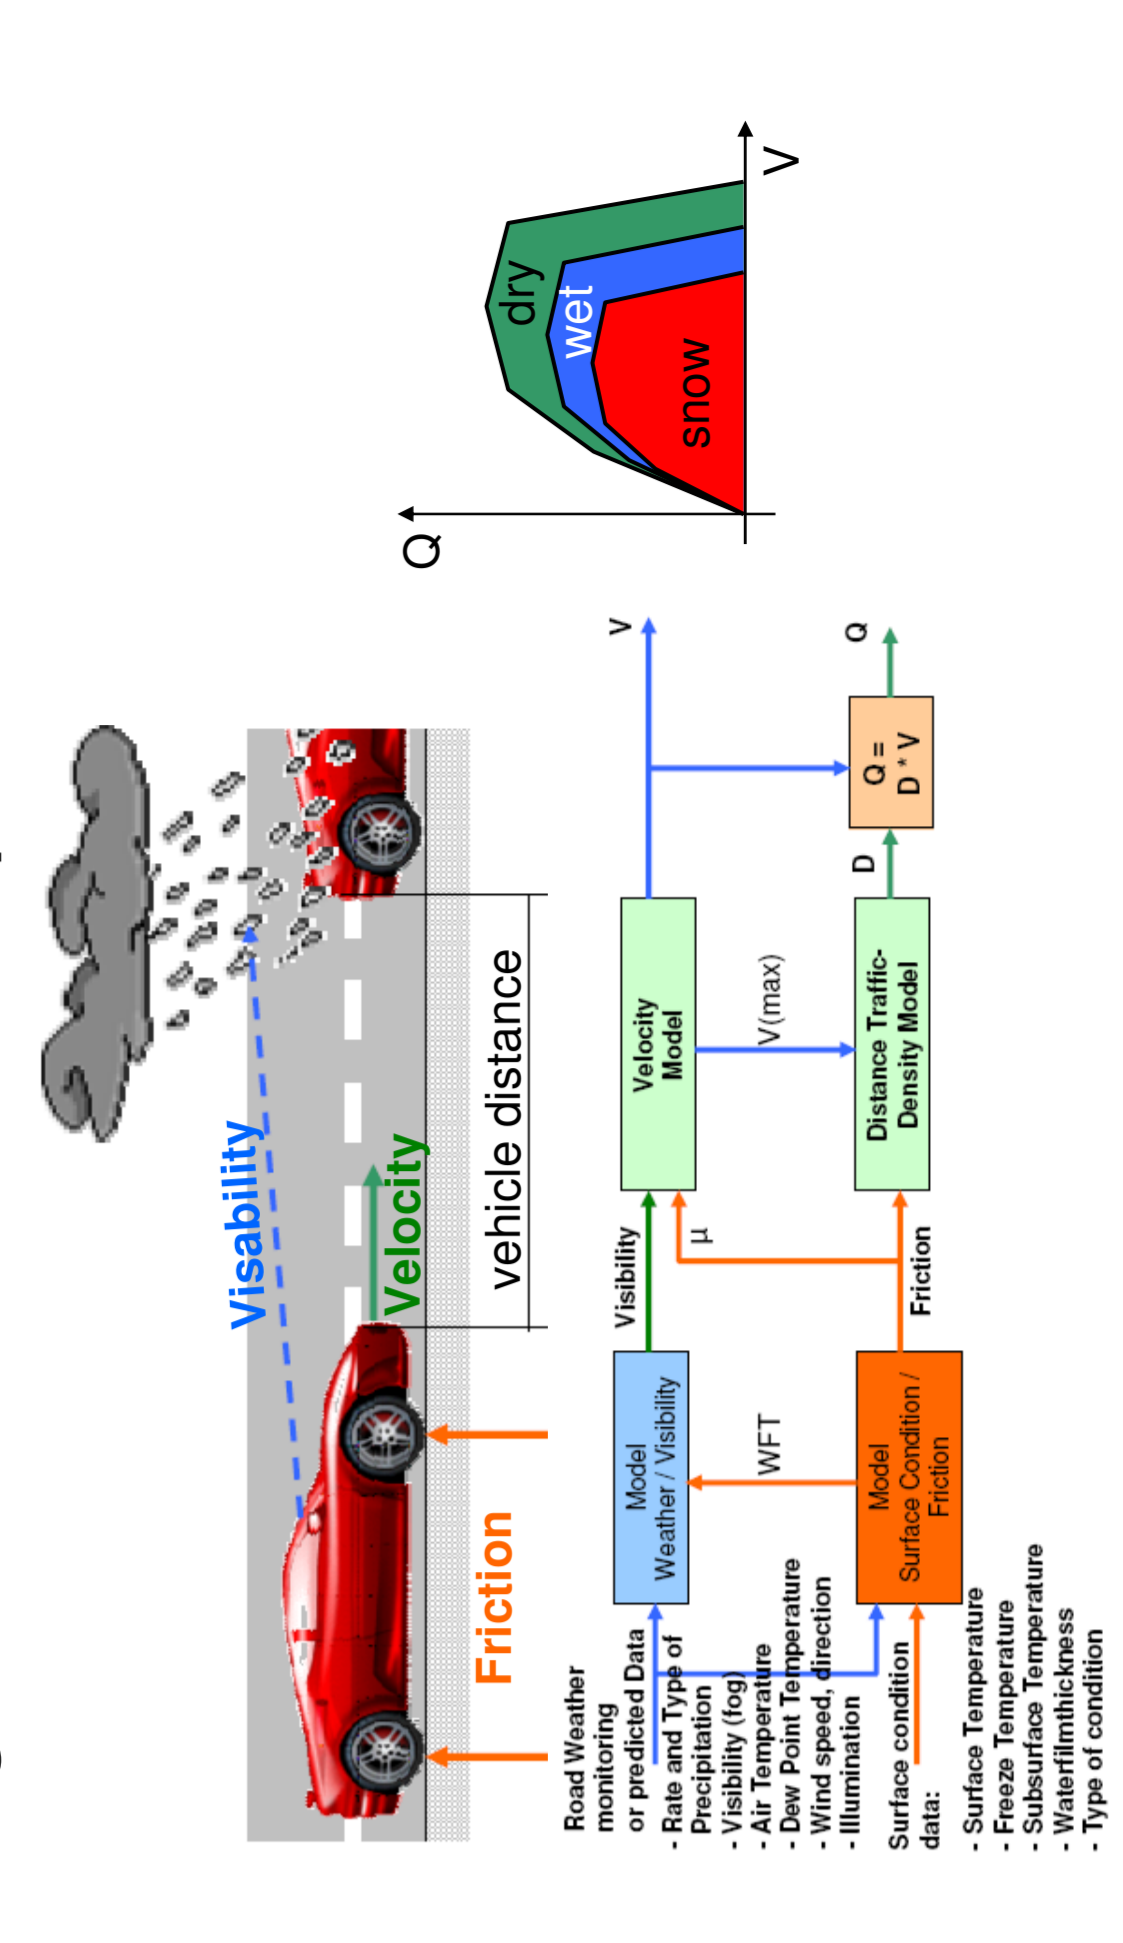

Active Measurement of Freeze Temperature by a compact Road Surface Sensor

Stand Alone solutions with SmartView central computer Software

Modeling Road Weather impact on Traffic Flow

The Road Weather Information Policy
